

“DESTINED TO BE”

Dr. David Mastro and Alluring Cosmetic Dentistry

Dr. David Mastro and Alluring Cosmetic Dentistry's mission is to make people happy, whole and beautiful by creating exquisite solutions to life's not-so-wonderful situations – even when others say, “impossible!”

From being known as Little Sculptor as a child to being a world-wide respected cosmetic dentist today, Dr. Mastro's life has been about restoring the broken, imperfect and abandoned. He credits his artistic Italian heritage, God-given talents and his father's missionary career as his source of inspiration.

One of Dr. Mastro's recent “impossible” cases was the smile of an accomplished interior designer. The victim of spousal abuse and an automobile accident, she had few teeth remaining. In a desperate search for a solution, she interviewed more than 30 dentists in the United States and Europe. Although she was repeatedly told her case was “impossible,” she continued her search until she found Dr. Mastro. She says, “Dr. Mastro is my miracle and he created the smile of my dreams.” This beautiful lady soon met the man of her dreams, too, and is engaged to be married.

Dr. Mastro and Alluring Cosmetic Dentistry believe every patient is a heart warming case. A withdrawn man who was embarrassed about his teeth and in the habit of hiding his smile, came in need of help with his professional image and career. After Dr. Mastro restored his beautiful smile, the man reported, as a result of his new appearance and confidence, he had received a promotion and was breaking sales records for the first time.

Dr. Mastro's life has been spent using his creative gifts to make winning creations. Even as a young boy, when his dad was away on mission trips, David helped at home by totally landscaping their lawn to lush balance and color and carving intricate lamps and furniture as gifts to his mom. Soon his sculpted and hand-painted science projects brought him city-wide attention, too. And, a few years later, he restored several abandoned, rusted motorcycles to show quality for his little brother.

Seemingly a ‘natural’ for sculpting and creating beauty, he scored the highest in the nation on the sculpting exam when he took the dental aptitude test for entrance into dental school. Dedicated to using his talents to the best of his ability, he graduated number 1 from his class at Emory University School of Dentistry and went on to win numerous honors and awards.

Now, after performing over 49,000 beautiful cosmetic dental procedures, Dr. Mastro is legendary for transforming impossible cases as well as for making simple creative touches that change lives. His cosmetic dentistry speaks for itself. However, whatever the situation, it is not unusual to hear his patients say, “He is a blessing. Dr. Mastro and Alluring Cosmetic Dentistry were destined to be.”

Note: All Before & After photos shown by Dr. Mastro or displayed on his website are always of his own makeover patients and his own work. See AlluringCosmeticDentistry.com for more examples and demonstrations. ■
